

Date: 07.10.2024 Teachers: Mrs. Harminder Kaur, Mrs. Navjot KaurTopic: 1- Air Around Us

In this week's assignment, children we will learn about "Air Around Us".

Children, who has seen wind?

No one has seen wind neither you nor I! When the leaves move because the wind is passing by!

Air is all around us, but we cannot see it. We can only feel the air when it moves.

Moving air is called wind and very fast moving air that causes destruction is called storm. Gentle wind is called breeze.

Air is a mixture of many gases. The air we breathe contains oxygen. All living things need air to stay alive. The air that we breathe out contains carbon-di-oxide.

Uses of air

- * We need air for breathing.
- * We need air for blowing candle.
- * We need air to fill a balloon or a ball.
- * Plants and animals also need air to breathe.
- * Fish also take in air present in water with the help of gills.

Date: 07.10.2024 Teachers: Mrs. Harminder Kaur, Mrs. Navjot Kaur

Topic: L - Air Around Us

An Astronaut and a sea diver carry oxygen cylinders. They also need air to breathe in space and under water.

Keep the Air Clean

Air becomes polluted due to smoke, dust and dirt. This air contains germs of diseases if we breathe in such air, we might get sick. So, we ^{all} should try to keep the air clean.

We should grow more and more plants near our house and school as it keep the air clean.
